

Validation Workshop on GIFMIS Functional Requirements

21 May, 2013

Following the formal adoption of GIFMIS Conceptual Design by the PFM Committee in April 2013, a series of validation workshops with various PFM stakeholders has been set to finalize the detailed GIFMIS functional requirements in partnership with PricewaterhouseCoopers-India. Specifically, the objectives of the workshop are:

- 1) to provide an overview of the scope and coverage of the different GIFMIS functions/modules;
- 2) to conduct a detailed review of the draft functional requirements specifications for the different modules proposed under GFIMIS, and
- 3) to generate feedback on relevance and completeness of the proposed functionality and to seek necessary inputs for finalization of the functional requirements for the system.

The validation workshop will cover the review of all GIFMIS functions or modules, viz: debt management, budget preparation and management, commitment management, expenditure management, receipts management, cash management, auditing management, and accounting and fiscal reporting. The final GIFMIS functional specifications will also determine the tender requirements of the GIFMIS system by third quarter of 2013.

GIFMIS is set to go live by October 2015 in pilot agencies: DBM, COA, DOF, BTR, BIR, BOC, and DepEd. Prior to its launch, thorough configuration and test from 2014-2015 will also be undertaken to ensure it meets the GOP business requirements.

The validation workshop will run from 17-31 May 2013, 8:00AM-4:45PM at DBM Executive Lounge, Boncodin Hall, San Miguel, Manila.

Additional details of the workshop can be found here:
